## EXPLANATION OF FEES

### Fee Structure

**Domestic students** have three options for payment of their account.

1. **Option A - One Payment**  
Pay the full annual college fee less \$500 discount in a one off payment by the due date. Payment must be via direct deposit.
2. **Option B - Two Payments**  
Pay the full annual college fee less \$250 discount for one payment by the due date prior to JCU study period 1 and a second payment by the due date prior to JCU study period 2. Payment must be via direct deposit.
3. **Option C - Fortnightly instalments**  
Pay the full annual college fee in 19 fortnightly payments made throughout the year by the fortnightly due dates.

**International Students** are required to pay using options A or B above.

Note that annual fees do not cover accommodation during the breaks before, after or between semesters.

### General fees

The annual fees and fee payment schedule do not include the general fees or additional charges outlined overleaf.

**Administration Fee:** (Non refundable) covers administrative expenses associated with admission. This fee is normally paid upon lodging your application.

**Student Association Fee:** collected on behalf of the Student Association and helps to promote a community spirit within the College through cultural, sporting and social events.

**College Photo Fee:** a college photo is taken in study period two. Each resident is given a copy.

**IT Infrastructure Fee:** unlimited high speed Wi-Fi is provided to all residents throughout the year.

**Building Fund Fee (Voluntary):** The College as a tax deductible gift recipient has included in this year's fee schedule a request for a \$100 contribution (\$50 per semester) to the College building and refurbishment fund. This is tax deductible. Your support is crucial for our ongoing maintenance and refurbishment programs.

**Air-conditioning Charge** - This fee covers electricity costs for air-conditioning and maintenance.

### Additional Charges

**Electricity for bar fridge** - Some students like to keep their own bar fridge in their room. Fridges are purchased at the student's expense. This fee covers the electricity cost for the bar fridge.

**Replacement Fob** - All locks are electronic, this charge covers the cost to replace a fob if a student loses their fob.

**Room move fee:** Residents who request to move rooms during the course of the academic year will be charged \$100 to cover cleaning and administration costs. This fee may be waived by the College Principal if the room move is for genuine wellbeing issues. The charge does not apply for room moves from one academic year to the next.

**Storage** - The college will supply students with a maximum of 4 large boxes and 2 small book boxes during vacation periods. The expectation is that the boxes are then returned to the college administration office once the student arrives back and unpacks. If the boxes are not returned the student is charged \$5 per box.

**Students are charged the following for storage over and above the approved storage limit;**

- Fridge: \$5
- Items that are not packed away in boxes: \$5 each
- Excessive items left in room: \$200

**Furniture disposal fee** - Personal furniture items such as futons and arm chairs not removed by the resident will incur a disposal fee of \$75 per item.

**Vacation Residency:** Your contract does not include accommodation before, after or between semesters. If a student needs to reside at the college for academic or other reasons then they will need to apply for vacation residency with the College prior to the end of the study period. The extra nights are then charged at a nightly rate based on the room type they are continuing to stay in.

### Payment Methods

**Direct Credit / Debit** - Fees are automatically deducted from you credit or debit card through Westpac's PayWay system.

**Direct Deposit (Option A and B only)** - Payment is paid direct to the account details provided.
