		\$23,3083	\$23,780	\$24,190	\$24,887	\$25,748	\$26,322

The annual fees and fee payment schedule do not include the general fees or additional charges outlined overleaf.

Administration Fee: (Non refundable) covers administrative expenses associated with admission. This fee is normally paid upon lodging your application.

Student Association Fee: collected on behalf of the Student Association and helps to promote a community spirit within the College through cultural, sporting and social events.

Building Fund Fee (Voluntary): The College as a tax deductible gift recipient has included in this year's fee schedule a request for a \$100 contribution (\$50 per semester) to the College building and refurbishment fund.

Electricity for bar fridge - Some students like to keep their own bar fridge in their room. Fridges are purchased at the student's expense. This fee covers the electricity cost for the bar fridge.

Replacement Fob - All locks are electronic, this charge covers the cost to replace a fob if a student loses their fob.

Room move fee: Residents who request to move rooms during the course of the academic year will be charged \$100 to cover cleaning and administration costs. This fee may be waived by the College Principal if the room move is for genuine wellbeing issues. The charge does not apply for room moves from one academic year to the next.

Storage - The college will supply eligible students with a maximum of 4 large boxes and 2 small book boxes during vacation periods. The expectation is that the boxes are then returned to the college administration office once the student arrives back and unpacks. If the boxes are not returned the student is charged \$5 per box.

Students are charged the following for storage over and above the approved storage limit;

- Fridge: \$5
- Items that are not packed away in boxes: \$5 each
- Excessive items left in room: \$200

Furniture disposal fee - Personal furniture items such as futons and arm chairs not removed by the resident will incur a disposal fee of \$75 per item.

Vacation Residency: Your contract does not include accommodation before, after or between semesters. If a student needs to reside at the college for academic or other reasons then they will need to apply for vacation residency with the College prior to the end of the study period. The extra nights are then charged at a nightly rate based on the room type they are continuing to stay in.
